POTTER BOYS ARE INJURED

Dave and Harvey Potter Have Similar Accidents Week Apart.

Dave and Harvey Potter, sons of Chas. Potter of Schellville suffered painful accidents to their fingers last week which may cost them the loss of the members. By some peculiar decree of fate, the accidents happened just a week apart and almost to the same hour.

Dave who is an employee at the Mare Island Navy Yard caught his hand in an electric pump and two fingers were so badly mangled that he may lose them at the first joint. Dr. Hennessey is now making a fight to save them.

Little Harvey Potter caught his hand in an electric washing machine and stripped one finger clean of the flesh. He was rushed over to Dr. Hennessey also and now both boys in the household are laid up with their injuries.

Mr. and Mrs. Potter are doing everything possible for the patients and friends trust no permanent injury will result from the unfortunate cycle of accidents.

PIONEER FATHER GOES TO REWARD

Passing of Charles Wesley White Takes Loved Parent and Staunch American From Community.

A venerable pioneer and good citizen crossed the great Divide when the angel of death called Charles Wesley White to eternal rest on Monday. Mr. White was the father of Mrs. Sam Lewis of this place and although he had made his home in Sonoma for several years, the final call came while he was in Oakland visiting Mrs. Bainbridge, his daughter of that city.

Mr. White was one of the grand old poineers and had passed 88 years. He was a typical American, born in New York state in 1829 and had the proud distinction of voting at every election since he attained his majority and continuously in this county since his residence here in 1853. He was a life long Democrat and a good citizen.

It was in 1850 that Charles White embarked for California and after crossing via the Isthmus of Panama, he landed at Long Wharf, San Francisco, November 11th of that year. In 1851 he commenced farming in Suisun valley and two years later settled in Sonoma county where he engaged in the contracting business and later in the undertaking business.

On February 20th 1862 he was united in marriage with Elizabeth Box and of this union six children were born. Mr. White lost his wife about 14 years ago and one of his daughters about the same time.

In his declining years he resided at Kenwood and here in Sonoma and loved the memories recalled in this valley. He often told of a brilliant ball given here shortly after his wedding, by Tony Oakes, a famous hotel man of early days. Mr. White was a very intellegent man and his reminiscenses were always listened to with great interest. He was a member of the Pioneer Society of Santa Rosa. His entire life was characterized by square dealing and he never spoke ill of his fellows. He was the essence of charity and a true Christian character.

Although in frail health for many months, deceased had been able to get around and a short time before his passing had been conversing with his daughter, Mrs. Bainbridge. She had just left the room when he was overcome and she had hardly reached his side when he breathed his last.

The funeral was held here from the residence of his daughter, Mrs. Lewis on Wednesday and was largely attended by staunch and life-long friends, an only sister and all of his children. Interment was in Valley Cemetery where some of his loved ones gone before had been buried as far back as 1853 and where rest many old time friends and companions of his youth.

The surviving children of the respected pioneer are Mrs. Sam Lewis of Sonoma, Mrs. Bainbridge of Oakland, Mrs. Ned Wilson of Kenwood and Frank and Will White.

Mrs. E. H. Cliff was hostess to the White Shell club last Friday at her home in El Verano. A delightful afternoon was enjoyed. Mrs. Cliff chose gold and white for the color scheme at the table where a dainty repast was served at the close of a perfect day. The flowers were yellow and white, the ice cream and cakes in the golden shades and everything blended most artistically. Music by Misses Irma Cliff, Viola Bruns and Mrs. Mentor of Hayward was greatly appreciated by all present.

SUPPLIES ARRIVE TO REGISTER 18-45

Local Exemption Board No. 2 Has Received Cards and Questionnaires for Men Who Are Expected to Register September 12.

Chairman Charles E. Lee was busy Saturday going over the large amount of supplies received from the government for Local Exemption Board No. 2, in connection with the work of registering men under the new draft act. It has been estimated by Provost Marshal-General Crowder's office that there are a total of 13, 190,000 men between 18 and 45 years in the country, but an allowance of 31,000 is deducted for those men of the new draft age who have already gone into the military or naval service of the country.

Based upon the ratio shown by the registration of men from 21 to 31 June 5, 1917, it is estimated that California will register 398,552, of which Sonoma county will furnish a total of nearly 52,000, of which 24, 500 will be in iDstrict No. 2, and the remainder in District No. 1.

Registration cards of a new form from those used June 5, 1917, together with certificates of registrations for each man registered and questionnaires for the entire number have been received by the board for use as soon as they are wanted.

ELOPEMENTS ARE IN FASHION

Two Pretty Sonoma Girls Wed Young Men of Their Choice the Past Week

Last Thursday Miss Elizabeth Helberg, pretty daughter of Wm. Helberg a prominent farmer of this valley was quietly wed over in Napa to George Carpenter who was recently honorably discharged from the army and returned from Camp Lewis. They had been sweethearts before George went North and he gave her a ring upon his departure. The wedding however was a complete surprise to family and friends. Judge Anglim united George and his bride.

On Sunday, Miss Josephine Steiner only daughter of Mr. and Mrs. John Steiner of the Union Hotel and one of our most popular and estimable young ladies, motored to Napa with Emile Andrieux, now a prosperous young mechanic at the Union Iron Works and were married by the priest of our neighboring city.

Young Andrieux has long sought to win Miss Josephine for his bride so on Sunday they decided to have a romantic though quiet wedding and later ask the paternal blessing.

They are to reside in San Francisco.

The Choice and Voice of The People

THAT EXODIC, yes idiotic political excresence known as the direct primary law which was fastened on California under the representation that it was all for the good of the dear people has again proved to be a virtual lemon, handed out by one of the high priests of reform politics in this state. For the second time it has disfranchised a great political party, the first dose having been swallowed by the Republicans in 1912 and now worse than the disenfranchisment of a political party, is the disenfranchisment of the people—thousands of both parties who want James Rolph Jr. as the governor of California and are told that they cannot vote for him in November.. A law acknowledged by everyone to be a fool law, disbars Rolph the right to have his name on the ballot even as the Democratic nominee, although he was nominated by that party at the primaries and received about as many votes as all other candidates put together. The little joker that a defeated candidate of any other party cannot head the ticket of a contending party precludes Rolph who was registered as a Republican, from being the Democratic nominee. Party wrangles and election ethics are keeping the people out of the candidate they want and the great political party of the administration from representation in the gubernatorial finals. The Republicans did not reject Rolph but a solid phalanx of dry votes did. Had the election Tuesday of last week been the general election, Rolph would be the governor elect today.

In this great hour of democracy when we are fighting and dying for the principles of a great cause, shall we permit the formality of a senseless primary, the haggling of politicians, the settling of political scores or the connivance of prohibition vandals to throttle the voice of the people who regardless of former political complexion want Rolph for governor? When the scattering vote for the countless other nominees on the ballot of August 27th is taken into consideration and weighed, it is apparent that Rolph's majority would have been even greater had the also-rans not been in the running. The Stephens boosters who would prove their generous spirit by accepting Heney on the ballot in November, lose all their breadth and shrink woefully when challenged to accept James Rolph as a running mate, for the bone dry candidate now governor of California. They concede Rolph's strength right there. Republican leaders who would eliminate Rolph from the ticket are not doing justice to the thousands of Republicans who voted for the San Francisco mayor at the primaries. They would nullify every Republican and every Democratic vote if not cast for a dry Republican or an easy-to-beat Democrat. They would have you believe that a bunch of labor union politicians are howling to get Rolph on the ballot, when as a matter of fact the roar is from every quarter and from all classes of square dealing, democracy loving people. These all agree that a primary election is an expensive fiasco and should be expunged from the statutes.

If worst comes to worst in November, the people can assert via the pencil who is their preference for governor and nothing can stop them from writing in the name of James Rolph for governor of this State. Political connivance should not be permitted to back a man as popular and worthy as Jim Rolph off the map. Let the people rule. That ruling will stand.

"THE KAISER'S TALK TO HELL"

The Kaiser called the Devil up
On the telephone one day
The girl at Central, listened in
To all they had to say.

"Hello" she heard the Kaiser say
Is old Satan home?
Just tell him this is Kaiser Bill
That wants him on the phone.

The Devil said "Hello" to Bill
And Bill said "How are you"
I'm running a Hell right here on earth
So tell me what to do."

"What can I do?" the Devil said
My dear old Kaiser Bill
If there's a thing that I can do
To help you, I sure will.

The Kaiser said "now listen
And I will try to tell
The way that I am running
On earth, a modern Hell.

I've saved for this for many years
And I've started out to kill
And it will be a modern job
You leave it to Kaiser Bill"

"My Zeps dropped bombs on cities
Killing both old and young
And those the Zepplins didn't get
Were taken out and hung".

"I started out for Paris
With the aid of poison gas
The Frenchmen, D- them! stopped us
And wouldn't let us pass.

"My submarines are devils
Why you should see them fight
They go sneaking through the wildest seas
And sink all ships at sight.

"I was running things to suit me
Till a year or so ago
When a man called Woodrow Wilson
Wrote me to go more slow"

He said to me 'Dear William'
We don't want to make you sore
So be sure to tell your U boats
To sink our ships no more"

"We have told you for the last time
So, Dear Bill, it's up to you
And if you do not stop it
You have got to fight us too."

"I did not listen to him
And he's coming after me
With millions of Yankee soldiers
From their homes across the sea."

"That's why I called you Satan
For I want advice from you
For I know that you can tell me
Just what I ought to do."

"My dear old Kaiser Wilhelm
There's not much for me to tell
For those Yanks will make it hotter
Than I can for you in Hell

"I've been a mean old Devil
But not half as mean as you,
And the minute that you get here
I'll resign my job to you"

"I'll be ready for your coming
And I'll keep the fires all bright
And I'll have your room all ready
When those Yanks begin to fight"

"For those Sammie boys will get you
I have nothing more to tell
Hang up the phone, and get your hat
And I'll meet you here in Hell

SCHOOL FAIR COMING EVENT

Annual Exhibition By School Children Keenly Looked Forward to By Everyone in The Valley.

The Sonoma Valley School Children's Fair promises to attain a success equal to the best of former years This is a sweeping statement to make considering the handicap of war conditions, the fact of a new school administration and the exceedingly short time in which to prepare for it. The success of the Fair financially is assured by the generousity of the business men.

As usual there will be speakers and demonstrators from the University of California. The farm adviser will be there with a speech. A six reel motion picture entitled "Rally Round the Flag" will be shown. An effort is being made to arrange a basket ball game with a neighboring high school.

In the exhibits special emphasis will be laid upon canned and dried fruits, all varieties of grapes, fresh and canned vegetables. Live stock will have a prominent place. A special prize of $10.00 will be offered for the best pig iin the Pig club. A trophy cup will be given to the grammar school winning the most ribbons. Prizes will be offered for the best exhibits of cut flowers, the best in the culinary art and the best in fancy work and sewing generally.

If a judge can be secured, a prize will be offered for the most perfect baby according to the set standard of measurements.

Prepare your exhibits now! The premium list will appear in the next issue of the Index-Tribune.

The Fair will conclude with a dance to excellent music in the evening.

A CLOUD AND THE SILVER LINING

* * * *
I was just thinking
* * * *
If Sonoma valley could
* * * *
Only be united on
* * * *
Other things as it's people
* * * *
Were on Joe Ryan's candidacy
* * * *
We would have the spirit
* * * *
That is more to a community
* * * *
Than all the riches
* * * *
And we'd get somewhere too
* * * *
Yes and a little of that pull together
* * * *
Way we had of casting ballots
* * * *
For Jesse Prestwood.
* * * *
We were just like one big family
* * * *
Voting for Joe. He was our own
* * * *
Big Brother and not only was the vote
* * * *
He got here some bouquet
* * * *
But believe me when—
* * * *
But what's the use of telling
* * * *
How our hearts sank and
* * * *
How friends, tried and true, felt
* * * *
When they heard the news
* * * *
And learned the truth
* * * *
No Joe's friends didn't fade away
* * * *
When they found out that he was
* * * *
Not to have the official
* * * *
Handle to his name, not a bit of it
* * * *
They lingered around in groups
* * * *
And in hopes and big hearted folks
* * * *
Grasped his hand and men,
* * * *
Strangers to the "soft stuff"
* * * *
Had a hard time to keep a grip
On themselves.
* * * *
Joe was game clear through
* * * *
But say, honest
* * * *
Some of Joe's friends
* * * *
Talked to him as a mother
* * * *
So comforting and kindly like
* * * *
Cause you see we all know Joe
* * * *
Like the good book
* * * *
His quiet way went
* * * *
A long way with us.
* * * *
The best candidate running, bar none
* * * *
But he's no surface politician
* * * *
No shouter, no mixer, no traveler
* * * *
No joiner, no chicken fancier
* * * *
No fox-trotter or church goer
* * * *
Just moved in a little sphere
* * * *
Minding his own business
* * * *
Helping his fellow men
* * * *
Doing the work before him
* * * *
And the duties confronting him
* * * *
With a smile and a way
* * * *
That wrought a miracle
* * * *
When Sonoma went to vote. Eureka!
* * * *
We found ourselves a united people.
* * * *
That's the silver lining to the cloud
* * * *
The cloud that gathered
* * * *
Over Petaluma way, the cloud that
* * * *
Gathered in retaliation of the
* * * *
Sordid politics pulled off here
* * * *
By a paper in Joe's own home town
* * * *
Petaluma's vote decided Ryan's fate
* * * *
There is only one construction to put
* * * *
On it for Petaluma is our neighbor
* * * *
Those responsible for the dirty
* * * *
Politics embroigling Petaluma's
* * * *
Candidate are responsible for
* * * *
Ryan's defeat
* * * *
Petaluma came back at our candidate
* * * *
Prestwood "got his" too.
* * * *
Figure it any way you like
* * * *
That's the answer.
* * * *
And behind the clouds
* * * *
The sun is still shining
* * * *
Joe is still smiling.
* * * *
And Sonoma sends greeting
* * * *
Heres to you Jim Petray!
* * * *
It took this campaign for sheriff
* * * *
To bring Sonoma folks together
* * * *
To let us know we could be
* * * *
Be united
* * * *
Barring the dirt.
* * * *
It sure was worth the battle
* * * *

Of the boys from the Home who joined the United States forces, Lieut M. C. Cooper, Corporal Victor Thompson and Musician Wilson Burnell are now in France. Billy Bogges has charge of the Neuro-Pschyiatric ward in the Base hospital at Camp Lewis; Max Soley is Sergeant in the Infirmary Supply Department of the Q. M. C. at Camp Kearney; Billy Craib is cooking for the sailors at Mare Island Navy Yard; John McComb is at the Marine camp at or near Philadelphia; Jos. Sassenrath is now in Reno;; Ethelbert Foster is attached to one of the companies at the Presidio, while the location of Stanley Brattan, McKee and Wheeler are not known to the writer.

Tod Dickinson is suffering from an eye trouble similar to the old fashioned pink-eye. We are advised that his trouble was caused by too many visits to the swimming tank at Boyes Springs where his vision was too deeply concentrated on the bathing beauties of that resort.

Again assuring you that I appreciate whatever you have done, I am,

Respectfully yours,

Among those taking their annual vacations at this time are W. E. Crapo and H. J. Rivest. Burr Leach and wife with Lowell Markee and wife are contemplating an extended auto trip in the near future.

Mr. and Mrs. Herman Schieck have been filling in the summer vacation for teachers by superintending the work in the cannery. The season is now at its heighth although the peach and pear crop is not as heavy this year as they have been in preceding seasons.

Work is being rushed on the new bakery and laundry buildings and they bid fair to be completed within the specified time.

War Time Sweeteners

MERICA has several excellent war time sweeteners that will be used largely during the shortage in the sugar supply.

They are maple sugar, syrups, honey and molasses and may be used in preparing desserts and other dishes requiring sweetening.

When a cup of syrup or honey is used to replace a cup of sugar the liquid in the recipes should be decreased one-fourth. One-third of a cupful of sugar is equivalent to one-third of a cup of honey, about one-half cup of syrup and about one-half cup of corn sugar. One-fourth of a cup of sugar is equal to about one-half cup of syrup or one-third cup of corn sugar. One tablespoon of sugar is equal to one tablespoon of honey, about one and one-half tablespoons of syrup and one and one-third tablespoons of corn sugar.

Sugar may be saved by the use of raisins, dates, figs, dried pears and fruit pastes used on the breakfast cereals.

Fruit marmalades, butters and jellies should be used to take the place of the ordinary sweetening at a meal and not as accessories to it. Fruits may be preserved without sugar. It may be added when sugar is more plentiful.

Preserving demands this year a thin syrup instead of a heavy syrup.

If sugar is used one-half of the amount may be replaced by another sweetener.

Drying is a means of preserving (without sugar) apples, cherries, strawberries and black caps.

When ready to use they may have added the needed sugar in the form of a syrup. When sugar is more plentiful fruit juices may be made into jellies or may be used as fruit juices with or without sugar, as beverages, fruit gelatins and frozen desserts.

Fresh fruits supply the place of sugar in the diet. They should be used freely. Desserts where sugar is scarce may be made of gelatins, junkets, custards, puddings and cakes.

POLES DRIVEN TO GERMANY TO WORK

Hun Commander's Brutal Order Issued to Conquered and Helpless People.

Every Able-Bodied Man Forced to Leave His Starving Family and Labor Under Shocking Conditions for the Oppressor.

This I have seen. I could not believe it unless I had seen it through and through. For several weeks I lived with it; I went all about it and back of it; inside and out of it was shown to me—until finally I came to realize that the incredible was true. It is monstrous, it is unthinkable, but it exists. It is the Prussian system.—F. C. Walcott.

F. C. Walcott, a member of the United States food administration, and during the time America was feeding the civilian populations of Belgium, Serbia and northern France an assistant of Mr. Hoover in these invaded countries, has pictured in a graphic way the conditions he found among the people it was his duty to help. In describing the terrible condition in Poland in 1916, the millions were dying of starvation, the pany, of thousands of defenseless

He that had been ruthlessly cut down by the sword of the German conqueror, he says:

In that situation, the German commander issued a proclamation. Every able-bodied Pole was bidden to Germany to work. If any refused, let no other Pole give him to eat, not so much as a mouthful, under penalty of German military law.

This is the choice the German government gives to the conquered Pole, to the husband and father of a starving family: Leave your family or die or survive as the case may be. Leave your country which is destroyed, to work in Germany for its further destruction. If you are obstinate, we shall see that you surely starve.

Staying with his folk, he is doomed and they are not saved; the father and husband can do nothing for them, he only adds to their risk and suffering. Leaving them, he will be cut off from his family, they may never hear from him again nor he from them. Germany will set him to work that a German workman may be released to fight against his own land and people. He shall be lodged in barracks, behind barbed wire entanglements, under armed guard. He shall sleep on the bare ground with a single thin blanket. He shall be scantily fed and his earnings shall be taken from him to pay for his food.

That is the choice which the German government offers to a proud, sensitive, high-strung people. Death or slavery.

When a Pole gave me that proclamation, I was boiling. But I had to restrain myself. I was practically the only foreign civilian in the country and I wanted to get food to the people. That was what I was there for and I must not for any cause jeopardize the undertaking. I asked Governor General von Beseler, "Can this be true?"

"Really, I cannot say," he replied. "I have signed so many proclamations; ask General Von Kries."

So I asked General von Kries. "General, this is a civilized people. Can this be true?"

"Yes," he said, "it is true"—with an air of adding, Why not?

I dared not trust myself to speak; I turned to go. "Wait," he said. And he explained to me how Germany, official Germany, regards the state of subject peoples.

It is hard for us to imagine such a condition in America as Mr. Walcott has described as existing in Hun-ridden Poland, and yet that is just what would exist should our boys, and the boys of our allies, now fighting in France fail to defeat the soldiers of this murder empire. This fair country of ours would be made into a German province; our people would be the slaves of the Junkers of Germany, subject to the beastly whims of the officers of the German army. In no war in which America has ever engaged have the stakes been so great as in this present conflict. Should we, by any chance, lose; should the Hun, by any chance, win; our liberties, our happiness, everything Americans hold dear, would be lost.

WILL "USE NOTHING GERMAN"

Club Organized for the Purpose of Boycotting Products of Hun Manufacture.

Chicago.—High art and low art, music and literature and dolls that talk and walk are to be taboo forever and forever to members of a new club here, when they bear the "Made in Germany" stamp or flavor.

"Use Nothing German" is the name of the club. And the women who have formed it swear that they mean what they say, and that after the war they intend that the kaiser does not recuperate from the ills he has brought upon himself through their aid.

The club expects to spread its message countrywide, and thus to induce women throughout the United States to back them up in ignoring everything German.

SOLDIER DESCRIBES LIFE IN FRANCE

Leslie McKinnon Writes To Wife Here of New Surroundings in the Old World.

August — 1918
Somewhere in France
Dear Ceal:—

Well it is about time to write you another letter, we have been doing a lot of traveling since I last wrote and have had no time for writing.

We have walked about twenty miles altogether but at different times and days so it did not hit us very bad except that our packs got rather heavy after a few miles. The most walking at one time was about 9½ miles which we did in one day, about 4 hours in the morning and 2 hours in the afternoon. We crossed the English channel at ***** so we did not see much of that except the port we started from and the port we landed in.

England is a very pretty country the houses are all of either red brick or stone and they seem to have all been built from the same set of plans. You see them for blocks at a time, the same, and every town is like the one you passed through before. There is practically no land wasted there, every field is raising crops and some of the farms are good sized ones with the house, barn, and other outhouses all built of the same stone which appears to be in large blocks, cemented together. Most of the houses have slate roofs and the others are of tile with a few thatched with grass.

France is little different but looks much older, the houses are for the most part of stone also but seem to have been erected much longer than those in England.

We were welcomed into France by an air raid the first night here but it was a few miles away. About 11 o'clock we heard the explosions of bombs first and then the anti-aircraft guns got into action and it was some celebration while it lasted and gave us a faint idea of what we are really getting into. Up to this time we have seen nothing that looks like war except the condition of the people. They seem to be getting along all right with enough to eat and drink but of course nothing is wasted here, the people use everything they possibly can.

We are now located in our permanent camp or billet as they call them here. We are in a town that was built in the 6th or 7th century, so you can see what strong buildings they are, all of stone with ornaments of wood around the entrances and the windows.

There is a church here carved out of solid rock and about as big as St. Agnes in the main part. There are a lot of underground tunnels under it and in some of them human bones lying around where prisoners of wars of long ago were put to slowly die of starvation. Other cases where people were buried in the rock wall in small compartments carved out by hand with a large stone set into the wall to cover the hole.

The people here treat us very friendly but understand practically no English, but with the help of books or one of the bunch who can talk French, we get along O. K.

We are living in houses here, we have our bed sacks filled with straw and with our blankets we are comfortable enough. We expect ***** it will seem good to get going again after that long time traveling around unsettled.

We left Irvine in England with the mumps and we don't know if he will be back with us or not but I hope he comes along. It would be rather tough on him after coming so far to be put into another outfit among strangers.

I am feeling good, getting lots of sleep and plenty to eat and that is about all anyone could ask for around here because there don't seem to be anything else to do if we did want to.

The Y. M. C. A. are doing all they can for us, have entertainments all along the line. There was one in England and one this afternoon here that I am going to take in.

I went to church here this A. M. being Sunday and the mass is quite different from what we were used to. The men stand all the time except during the sermon and the ladies kneel all the time except at the gospels so we attracted quite a little attention by doing as we always have done in the States. They don't have benches here but chairs to sit on, a smaller one to kneel on with a high back for resting the arms on so everyone has two chairs, otherwise things are the same.

We havent received any mail yet but I sure would like to hear from you even if it was only a post card. I can stand it a little longer. I expect about fifteen letters from you if you have been writing regular and I am going to take a day off to read them.

Well now as I have put down about all I can think of for this time and I think I have said quite a little, I would like to tell you more about the cities and towns we passed throu but can't so we will have to be satisfied with what is here.

Hoping that you and the family are all well and happy. I am as ever.

Mac.

Sgt. L. B. McKinnon "B" Battery
62nd C. A. C. American E. F.
Somewhere in France
Dear Ceal:—

Well a few more days nearer the end of the war and everything about the same. We don't hear any more about the war here than we did in San Francisco, in fact even less as we dont see the papers as often as we did there. The New York papers have branches in Paris where they publish papers but they don't tell much except that the enemy is still going back about as fast as they can move. We are taking things easy for a while but lots of work ahead and I hope we get into it soon and then for the big noise.

The country around here is all vineyards but the grapes are not ripe yet but when they are we sure expect to get our share if we have to wait until dark to get them, but I don't think we will have to do that. The people here take very good care of the vineyards and you can see by the vines that the crops are very good. They have wires strung along through the vines for them to climb on and keep them plowed all the time so that the weeds never get a start in them. The plowing is all done by oxen and a small plow which has one handle and is all made of iron, very little wood being used at all here..

They use two wheeled wagons, carts and buggies entirely here, mostly drawn by oxen or small jacks, only a few horses being used at all and then only by the wealthy. Automobiles are strangers here except the Government machines, but as gasoline is $1.80 per gallon, that can be expected because the people around here don't seem to be extra well off, but one can never tell by looks.

One thing that is very unusual to us is that there is no water supply system in the town, each house having its own well and pump right up in the house and a few pumps scattered through the town for public use. The people do their washing at a public pool about 12 feet square and about 2 feet deep carved out of stone The sides slope up to the top and about a foot of it is free which they use for a wash board. It is a funny sight to us to see a bunch of women around there on their knees in a box with one end broken out and full of straw to kneel on and a paddle in their hands hitting away at the clothes to get them clean and they seem to be able to get them white without much trouble or the help of laundry blue which you people would not do without.

We can get all the wine we want here at 1½ francs a quart which is about 30 cents, but anyone getting too much gets into quite a little trouble. Of course at first there were a few who thought they could drink the town dry, but gave it up after one night and the dark brown feeling the next morning which as you have heard is not very pleasant.

No mail yet, but expect some before long so that helps to know that it is coming sometime soon. I hope there is a big pile of it for me. I am going to write to my mother today as I have not written to her yet and I guess it is about time I was doing it.

All the bunch are O. K. and trying to enjoy life over here, which is kind of hard for them after all the places a person could go for amusement in the states are gone and none at all here.

Well dear I guess this will be all for this time as it is about time for chow and that is one of the most important things I do during the day and am always ready when soup call blows.

Hoping you and the little ones are O. K. also all the rest of the bunch.

Mac.

Mr. and Mrs. Harry Quartaroli and baby were up from San Francisco over the last week end and upon their return home were accompanied by Miss Velma Quartaroli.

The Ford automobile engine, illustrated here, like all *internal combustion engines*, requires an oil that holds its full lubricating qualities at cylinder heat, burns clean in the combustion chambers and goes out with exhaust.

ZEROLENE LIGHT fills these requirements perfectly. *because it is correctly refined from selected California asphalt-base crude.*

"Zerolene is the Best"

—Say leading motor car distributors, because the records of their service departments show that ZEROLENE, correctly refined from selected California asphalt-base crude, gives perfect lubrication with less wear and less carbon deposit.

Amendment to Dental Law Breaks Power of Combine and Safeguards Interests of All

PAINLESS PARKER

More than 125,000 Californians have asked to have the Dental Law amended.

If you knew how the present Dental Law operates you would realize that never has there been greater reason for change in a law.

Dental laws are made at the command of a combine of political dentists for their own profit, under the excuse, "protection for the people."

This permits them to fix high prices, and hold them high, by regulating competition.

High prices make a luxury of dentistry and put it out of reach of eighty per cent of the people.

This amendment brings dentistry within reach of all the people.

It secures the services of highly skilled dentists, permitted to charge reasonable fees.

Among its dentists to give openly to the public the people should have about the care of their

Yes! *I have* personal interest in this measure.

The Dental Trust seeks to ruin those it cannot control, depriving the people of fair prices which come only through competition.

Huge sums of money are being used to cloud the issue, so that the interests of the people may be made secondary to the profits of the dentists.

This is your fight to make it possible for people of moderate means to save their teeth.

End this autocracy.

The Dental Amendment will be No. 21 on the ballot.
